

WIDE LOW PROFILE PALLET TRUCK

The ACLow51B is a wide low profile pallet truck.

Low Profile Pallet Trucks are designed to operate with low clearance pallets, disposable pallets. These types of pallets are becoming increasingly common in containers which are loaded by conventional forklifts.

Minimum fork height is just 51mm and raised height is a maximum of 165mm.

Dimensions across the forks are 685x1220mm, with each fork measuring 160x37mm.

This low profile pallet truck has a capacity of 1500kg and has the quieter PU rollers on the front and rear.

Top quality Hydraulic pump with a slow lowering hand controlled 3 position lever.

Load Capacity	1500kg
Dimensions across the Fork (W x L)	685x1220mm
Lowered Fork Height	51mm
Raised Fork Height	165mm
Fork Size (W x D)	160x37mm
Gap between the forks	365mm
