

TG100 Lift Table 1000Kg

Lock-out Pins Included

Extra Large Mobile Scissor Lift Table Model: TG100 - 1000kg Capacity

The TG100 is an extra large mobile scissor lift table, which has a 1000kg capacity. It has a heavy duty steel construction with thick powder coated finish.

The table top area is much larger than normal, 2035x750mm - making it very useful for example, for lifting large items so they can be worked on or moved.

Single stage foot operated pump for reliability. Hand operated table descent. Overload by-pass valve to protect the operator and pump. Lifts from 360mm up to a maximum of 1360mm (1.36 metres)

The Table utilises front fixed wheels and rear casters with brake function
