The HP-ESE20D is a hand pallet truck with integrated Load indication system. This robust system is ideal for the cost conscious user who wants basic mobile weighing.

The LCD indicator of the HP-ESE20D shows a weight Indication in 5kg steps, with a tolerance of ±20 kg.

The head unit works on only 2 AA batteries and for the best accuracy and repeatability, each pallet has to be lifted to the reference height for weighing.

The HP-ESE20D has a spirit level which shows when the reference height has been reached, at which point the user can now take a reading of the weight.

ADVANTAGES

- · Manual zero correction.
- · Totalling with sequence number.
- · Visual overload alert.
- · Error messages in display.
- · Easy and economic overload control for lorries
- · Simple and fast incoming weight control

We provide a nationwide 2-3 day delivery service with next day delivery available on request.

All of our products come with a twelve month warranty
