# 2500kg PALLET TRUCK WITH DOUBLE NYLON WHEELS

This is a version of our best selling pallet truck, but with Nylon Steer wheels and Double Nylon load rollers.

With dimensions over the forks of 540x1150mm, this is the ideal size for the most common Euro Pallets of 120x80cm, but will also lift the common GKN/Chep pallets of 120x100cm and many other sizes.

With fork widths of 160mm, the gap between the forks are 220mm. Height of the forks is 85mm fully lowered and 200mm raised.

Nylon roller pallet trucks are often used in environments where the surface is often rough or contaminated with swarf and other debris. In these environments like this using a softer PU wheel would not be ideal, as debris can collect on the surface of the wheels.

Capacity	kg	2500
Min Fork Height	mm	85
Max Fork Height	mm	200
Steering Wheel (Nylon)	mm	180x50mm
Load Rollers (Double Nylon)	mm	80x93mm
Width across forks	mm	540
Fork Length	mm	1150
Gap between the forks	mm	220
Fork Diameter	mm	160
Total Pallet Truck Length	mm	1530
Height (Floor to top of handle)	mm	1250
